6 May 1965

Mr. W. S. Lester State NIS Committee Member Chairman, NIS Committee

NIS Bulietin on newly available MIS

In view of the interest and I might say enthusiastic endorsement of the first Bulletin by Mr. Cline and other senior people, I strongly urge that the initial Bulletin dated 3i March and the new one appearing 7 May (including a list of Dominican Republic items which have been very actively sought and used in the last fortnight) be handed directly to at least Mr. Hughes and Mr. Evans. By the same token anything that can be done to get these items directly to potential users, rather than having them confined to disseminators and librarians, would be most constructive and more in the interest of aiding users than in publicity for the NIS.
